SHORT FORM CONTENT AGENCY

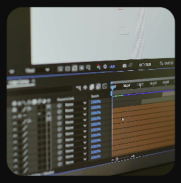

Company Profile

ABOUT US

From Iris-AI models and product AI shorts to character animation, filming and editing — Cielink is a short-form agency built around AI production.

> No casting, no shoot — our Iris-AI builds a model that looks real.
>
> No studio fee, no model fee — priced reasonably. That's why Cielink makes short-form with AI.

SERVICES

01
Short-form Editing
Send us your own footage and we edit it — cuts, captions and effects tuned for Reels, Shorts and TikTok.

02
Product AI Shorts
Just send a product photo — an AI video with only the product on screen.

03
AI Model Video
One AI model appears in a single scene.

04
Character Animation
An animation built around one original character.

05
AI Ad Video
An AI model and your product together across multiple scenes.

06
Exclusive AI Model
An AI model made only for your brand. Each video made with it afterward is billed separately.

07
Short-form Filming
From planning to the shoot itself — we film what the video needs.

Agency Quality, Priced Reasonably — No Studio or Model Fee

No model casting fee, no film crew, no studio rental — AI production simply has none of these three costs.

- No casting fee — our Iris-AI stands in for the model.
- No crew or equipment cost — there is no shoot to run.
- No studio rental — the background and lighting are AI-made too.
- What that saves goes back into quality, not into the price tag.

WORK

These models are AI-generated, not real people.

Process

01 Consulting

We align on goals, the channel (Reels/Shorts/TikTok), and which of the seven production methods fits.

02 Material Prep

For AI production, just send a product photo or reference. For a shoot, we confirm location and talent.

03 AI Generation or Filming

AI Model Video, Product AI and Character Animation are AI-made; a shoot team films when needed.

04 Editing & Captions

Cuts, captions and effects are added to fit the channel.

05 Draft & Revision

A draft is delivered and feedback is applied (two revisions included).

06 Delivery

Final files are delivered and the project wraps up.
